### Steel Automatic Waterer

- Blasted steel and polyurethane paint
- 115 volt 300 watt silicone heaters
- Thermostatically controlled
- Easy flip-down lids
- 146 lbs / 17.5" x 31.5" x 32"
- 26.5" drinking height
- Item No. F5 #40630

For over 100 years, Franklin has been a trusted name in the livestock care products industry. Many of our classic waterers still dot the agriculture landscape of America today. And the Franklin valve continues to be respected for its design and function.

Bakko Industries, Inc. is proud to carry on this tradition. Our decades of experience as a manufacturer of automatic waterers makes our addition of the Franklin line a natural fit. Our goal is to provide durable, high-quality, energy-efficient systems that will last for decades. This same goal is true for all of our oilers and mineral feeders.

It is our desire to provide you with quality products so you can have healthier livestock.
